TO COMMANDERS AND SHIP OWNERS.

THE following Extract of a Letter from Captain D. Ross, Marine Surveyor General, describing the position of the Rock discovered by Captain Parry, Commander of the Ship *Nerbudda*, off Tree Island, is published for general information:

EXTRACT.

"I have the honor to state for the information of the Marine Board, that when off Sandoway, on the 10th instant, we met with the Ship *Nerbudda*, and from Captain Patrick I received a Memorandum stating that his Ship had struck on a Rock lying off Tree Island, and that after they had run off to the Eastward and anchored, the following morning, Tree Island bore N. W. by W. estimated distance 10 miles and Foul Island bore S. by E. ½ E. by S. I immediately went in search of the Rock, and next day found it to be the extremity of the Dangers, that run off Tree Island to the South Eastward, it bears from the centre of the Island S. 61° E. distant 4½ miles, with 10 and 11 fathoms water close to the Eastward of them. The patch of Rocks is not a cable's length across, and on one large Rock we had only 1½ fathoms water; there was a considerable swell over them at the time I was examining the Reef in the boat, but no Breakers. Tree Island is known to be very dangerous, and should never be approached under 6 miles or 13 fathoms water to the South Eastward and Eastward of it."

SEA DEPARTMENT.—If Goods are Exported in full of Rowanahs then current; but are Re-landed, and not subsequently Re-exported until after the Rowanahs are time-expired, then such Goods are considered as fresh Exports, are treated on if they had never been protected by Rowanahs, and Duty is taken, if any be leviable on such Goods under the Regulations. But upon request made on the face of Re-land Applications (not otherwise) parties will be furnished with Certificates giving particulars of Rowanahs, in order that they may be fully aware of the dates on which those Rowanahs will become time-expired; and such Certificates will have the force and validity of Rowanahs for any remaining period of the currency of the latter. No. 585.

TO COMMANDERS AND SHIP OWNERS.

THE following Extract of a Letter from Captain D. Ross, Marine Surveyor General, describing the position of the Rock discovered by Captain Paratck, Commander of the Ship *Nerbudda*, off Tree Island, is published for general information:

EXTRACT.

"I have the honor to state for the information of the Marine Board, that when off Sandoway, on the 10th instant, we met with the Ship *Nerbudda*, and from Captain Patrick I received a Memorandum stating that his Ship had struck on a Rock lying off Tree Island, and that after they had run off to the Eastward and anchored, the following morning, Tree Island bore N. W. by W. estimated distance 10 miles and Foul Island bore N. E. $\frac{1}{2}$ E. by E. I immediately went in search of the Rock, and next day found it to be the extremity of the Dangers, that run off Tree Island to the South Eastward, it bears from the centre of the Island S. 81° E. distant 4 $\frac{1}{2}$ miles, with 10 and 11 fathoms water close to the Eastward of them. The patch of Rocks is not a cable's length across, and on one large Rock we had only 1 $\frac{1}{2}$ fathoms water; there was a considerable swell over them at the time I was examining the Reef in the boat, but no Breakers. Tree Island is known to be very dangerous, and should never be approached under 6 miles or 13 fathoms water to the South Eastward and Eastward of it."

CHAS. B. GREENLAW, Secretary.

Fort William, Marine Board Office, the 21st March, 1833.

Commander in Chief.

The Commander in Chief has confirmed the Proceedings of this Court Martial, although he cannot altogether approve of them. It appears to His Excellency to be clearly established in evidence, that John Fraser's death was caused by some of the blows on the stomach, which he received from Hook, in the course of the scuffle between them, and the Court seem to have forgotten, that the Prisoner was on his trial for manslaughter, and not for murder. But as, from the nature of the case, it is likely that the Prisoner, if found Guilty, would not have been sentenced to any more severe punishment than a moderate imprisonment, and as he has already suffered confinement for a considerable time since the offence was committed, His Excellency will not direct a revision of the Sentence.

Benjamin Hook is to be released, and sent to rejoin his Regiment.

By Order of His Excellency the Commander in Chief,
W. S. BRATSON,
Adjutant General of the Army.

No. 385.

TO COMMANDERS AND SHIP OWNERS.

THE following Extract of a Letter from Captain D. Ross, Marine Surveyor General, describing the position of the Rock discovered by Captain Patrick, Commander of the Ship *Nerbudda*, off Tree Island, is published for general information:

EXTRACT.

"I have the honor to state for the information of the Marine Board, that when off Sandoway, on the 10th instant, we met with the Ship *Nerbudda*, and from Captain Patrick I received a Memorandum stating that his Ship had struck on a Rock lying off Tree Island, and that after they had run off to the Eastward and anchored, the following morning, Tree Island bore N. W. by W. estimated distance 10 miles and Foul Island bore S. by E. 2 E. by E. I immediately went in search of the Rock, and next day found it to be the extremity of the Dangers, that run off Tree Island to the South Eastward, it bears from the centre of the Island S. 61° E. distant 4½ miles, with 10 and 11 fathoms water close to the Eastward of them. The patch of Rocks is not a cable's length across, and on one large Rock we had only 1½ fathoms water; there was a considerable swell over them at the time I was examining the Reef in the boat, but no Breakers. Tree Island is known to be very dangerous, and should never be approached under 6 miles or 12 fathoms water to the South Eastward and Eastward of it."

CHAS. B. GREENLAW, Secretary.

The usual Annual Committees will assemble on the 1st proximo, at the Head-Quarters of Divisions and Districts, for the examination of such Men of the Native Army as may be deemed unfit for the active duties of a Soldier.

2. The attention of Committees and of Commanding Officers is requested to the instructions circulated with the Adjutant General's Letter of the 10th March 1830, and to General Orders of the 11th March 1832; and in transferring Men of Local Infantry Corps, Committees will be guided by Government General Orders No. 9, of the 2d May, and No. 78, of the 31st July 1823.

4. It is to be borne in mind, that the interdiction to the transfer of Commissioned and Non-Commissioned Officers to the Pension Establishment, except under particular circumstances, still exists; and in cases where the special sanction of His Excellency for the presentation of such Men to an Invaliding Committee, may have been obtained, they are (notwithstanding they may be pronounced by the Committee unfit for further active service) to be retained on the strength of their Corps, until their transfer to the Pension Establishment is duly notified in General Orders.

5. The Officer Commanding the Presidency Division will exercise his discretion, with reference to the situation of the Cantonment from which the Men invalided may have come, in directing them to return to the Head Quarters of their Regiment, or in retaining them at Barrackpore, under the charge of the Superintendent and Pay Master of Native Pensioners, until finally transferred.

TO COMMANDERS AND SHIP OWNERS.

THE following Extract of a Letter from Captain L. Ross, Marine Surveyor General, describing the position of the Rock discovered by Captain Patrick, Commander of the Ship *Nerbudda*, off Tree Island, is published for general information:

EXTRACT.

"I have the honor to state for the information of the Marine Board, that when off Sandoway, on the 10th instant, we met with the Ship *Nerbudda*, and from Captain Patrick I received a Memorandum stating that his Ship had struck on a Rock lying off Tree Island, and that after they had run off to the Eastward and anchored, the following morning, Tree Island bore N. W. by W. estimated distance 10 miles and Foul Island bore S. by E. ½ E. by S. I immediately went in search of the Rock, and next day found it to be the extremity of the Dangers, that run off Tree Island to the South Eastward, ½ mile from the centre of the Island S. 61° E. distant 4½ miles, with 10 and 11 fathoms water close to the Eastward of them. The patch of Rocks is not a cable's length across, and on one large Rock we had only 1½ fathoms water; there was a considerable swell over them at the time I was examining the Reef in the boat, but no Breakers. Tree Island is known to be very dangerous, and should never be approached under 6 miles or 13 fathoms water to the South Eastward and Eastward of it."

By Order of the Marine Board,

CHAS. B. GREENLAW, Secretary.
